VA MOD Secondary Pages

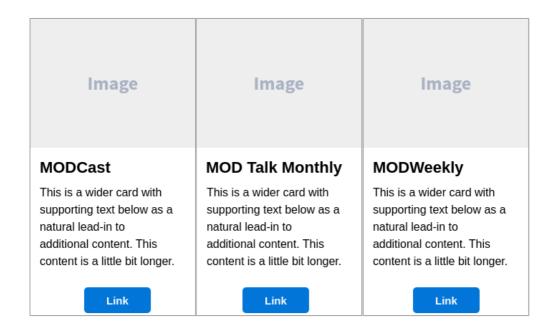

March 19 2019

Contents

- 1. Audience Landing Page
- 2. MODCast Landing Page
- 3. MOD Map Landing Page
- 4. MOD Projects Landing Page

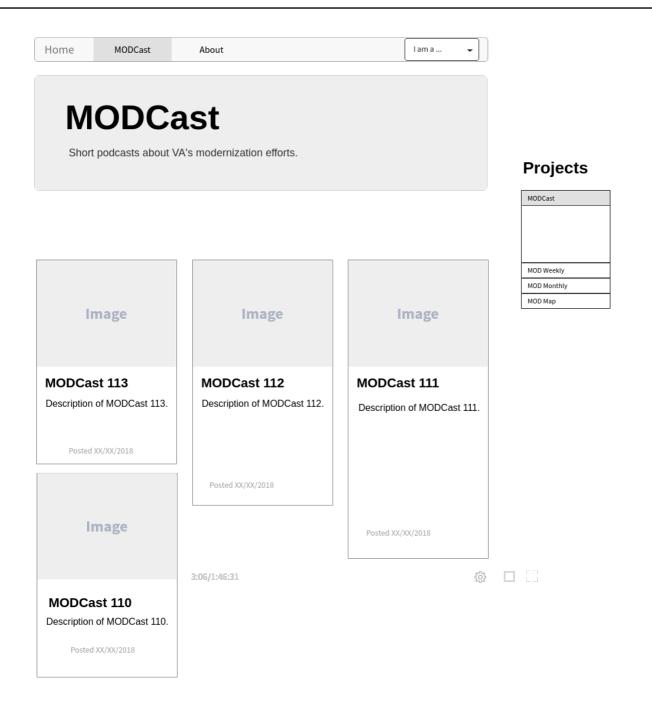

Text regarding this secondary landing page...purpose and tools for VA leaders.

Comments - Audience Landing Page

Eric Hove Mar 19 2020:

Example of a secondary landing page if we decide to filter things by audience.

Comments - MODCast Landing Page

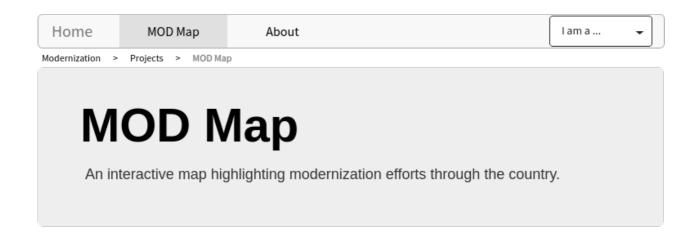

Eric Hove Mar 19 2020:

Also put an accordion on the right-hand site if we want to navigate by project/initiative.

Eric Hove Mar 19 2020:

All MODCasts would be populated in an irregular pattern. The images could be stills/video controls for the podcasts.

MOD Map Landing Page

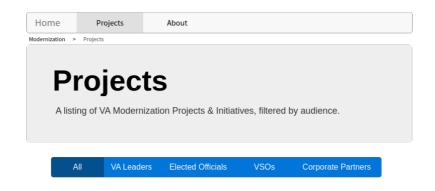

Comments - MOD Map Landing Page

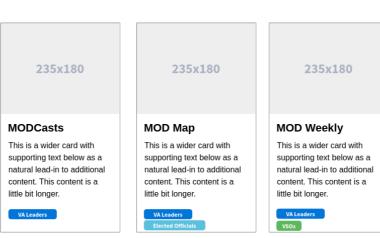

Eric Hove Mar 19 2020:

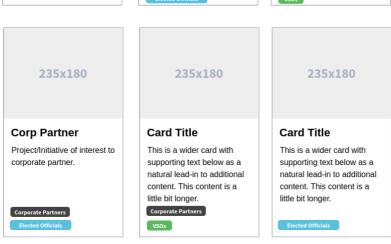

Hotspots in the map could take the user to a tertiary page that has a list of all MOD news for a given state; or it could populate some sort of modal that just has a highlighted bit of MOD news.

Eric Hove Mar 19 2020:

Added breadcrumb navigation near the top.

Comments - MOD Projects Landing Page

Eric Hove Mar 19 2020:

This page could host all products; tagged by intended audience. Blue button bar after the jumbotron would essentially be a toggle bar that would filter/dynamically render products/projects/initiatives by their audience tag (badges in the cards). Defaults to "All" here.
